EXPERIENCE

Augray Private Limited — (UI/UX Designer)

(Apr 2024 - Present)

- Designed immersive UI for AR and VR applications, optimizing usability for head-mounted devices and gesture-based navigation.
- Created high-fidelity prototypes and interactive mockups using Figma to demonstrate behavior in 3D environments.
- Collaborated with developers to support pixel-perfect Figma-to-code implementation for responsive user interfaces.
- Developed design systems and reusable UI components to streamline development.
- Collaborated with cross-functional teams to develop scalable design systems and component libraries for AR/VR platforms.

Techie Hope Solutions — (Senior Graphic Designer)

(Apr 2022 - Nov 2023)

- Delivered branding solutions including logo design, social media creatives, and marketing materials aligned with brand strategy.
- Improved visual consistency across digital campaigns and enhanced brand recall using mood boards and style guides.

EDUCATION

UI/UX Design Course — Fortune innovative

Aug 2023 – Jan 2024)

- Learned principles of design thinking, UX research, wireframing, and responsive web/mobile UI.
- Hands-on with Figma and Adobe XD to create user flows, high-fidelity screens, and interactive prototypes.

Diploma in Mechanical Engineering — EIT Polytechnic College

(2017 – 2020)

Percentage: 73%
